Experience

BLUE STAR LIMITED

Sep 2025 – Present

Application Engineer

- Managed Salesforce support for L1/L2, ensuring data integrity and conducting UAT for timely releases.
- Ensured smooth adoption of new features by delivering timely releases and providing ongoing user support. Spearheaded user management, roles, and permissions to optimize system functionality and user adoption.
- Collaborated with cross-functional teams to resolve issues, support integrations, and create user guides. provided L1/L2 Salesforce support, managing users, roles, and permissions.

SUKOON UNLIMITED

Feb 2025 – Apr 2025

Data Analyst Intern

- Delivered actionable insights that improved profitability by 20% by providing decision science insights on time.
- Enhanced Medicare-style risk adjustment analysis through statistical modeling (correlation analysis, hypothesis testing) to support operational decision-making. Spearheaded the creation and automation of Tableau and Power BI dashboards for KPI tracking, integrating CI techniques for process improvements.
- Engineered end-to-end ETL pipeline development on healthcare and supply chain datasets using Python, SQL, PySpark, Hive, Hadoop, and Teradata.

UNIFIED MENTOR

Jan 2025 – Feb 2025

Data Analyst Intern

- Optimised data visualisation processes to streamline decision-making and improve overall efficiency in data analysis.
- Collaborated with team members to translate business problems into analytical solutions using the self-service dashboards. Spearheaded the design of self-service dashboards in Tableau/Power BI to visualize marketing, operations, and finance metrics for cross-functional teams.
- Engineered advanced data wrangling and HiveQL querying on large datasets to enhance data quality and integrity for retail and customer analytics.

Skills

- **Languages:** Python, SQL
- **Frameworks:** Apache Spark, Kafka, Apache Airflow
- **Tools:** Docker Compose, Apache Hadoop, Microsoft Azure Data Factory
- **Platforms:** AWS, Azure, Linux
- **Visualization Tools:** PowerBI, Tableau
- **Libraries:** Numpy, Pandas, Matplotlib, Sckit Learn

Education

Chandigarh University

Aug 2021 – May 2023

MCA (Master of Computer Applications); CGPA: 7.90

Chandigarh

Centurion University of Technology and Management

Aug 2018 – Jun 2023

B.Sc in Computer Science; CGPA: 8.79

Bhubaneswar

Projects

AI-Powered Urban Mobility Patterns and Environmental Impact Analysis

Oct 2022

- Developed Big Data pipelines and anomaly detection models in Spark, Python, and SQL to forecast transport delays with 85% improved accuracy.
- Utilized Tableau dashboards to visualize mobility patterns and KPIs, aligning insights with supply chain and operations analytics decision-making.
- Applied statistical concepts and decision science methodologies to reduce disruptions and optimize customer experience in urban mobility analysis.

Tech Stack: Python, Numpy, Pandas, Advance Excel, PySpark

Churn Prediction for a Subscription-Based Service [↗](#)

Jun 2021

- Developed predictive analytics pipeline using Python, SQL, PySpark, and Hive on Hadoop/Teradata for customer churn modeling, increasing retention insights by 25%.
- Automated ETL, feature engineering, and visualization dashboards using Tableau and PyDash to support data-driven decisions in customer and marketing analytics.
- Applied decision science and CI techniques to reduce churn risk and translate analytical insights into actionable business improvements.

Tech Stack: Python, MySQL, Tableau, Numpy, Pandas

Certificate

- Salesforce Certified AI Associate (Salesforce) [↗](#)
- Google Data Analytics Professional Certificate (Google) [↗](#)
- IBM Data Analyst Professional Certificate (IBM) [↗](#)
